This report has reference to the following exhibits which were delivered to this Laboratory on 1 February 1990 by CLA Steve Leary.

EXHIBITS:

- 5 - #2 Check from south side of road Human Blood A
- 6 - #3 Wadded paper from south side of road Human Blood A
- 7 - #4 Paper from south side of road Human Blood A
- 4 - #5 Paper items from south ditch Human Blood A
- ~~#11 Crowbar from south side of road NO BLOOD~~
- ~~#13 Handgun from left floor area NO BLOOD~~
- 1(u) - #45 Pen from road - Blood - insuff to determine if Human or type.

Exhibits: (Cont'd.)

One sealed brown paper bag containing Exhibits #8, #9, #18 through #24

*10 NOT  
exam*  
~~#8 Section of denture from middle of road - NO EXAM~~

~~#9 Section of denture from north ditch - NO EXAM~~

~~#18 Swabbing from chain - NO EXAM~~

~~#19 Swabbing from chain - NO EXAM~~

~~#20 Fabric from behind right seat - NO EXAM~~

*C*  
*3*  
*Exam*  
*E*  
~~#21 Scraping from bed of truck beneath truck box~~ *human blood*

~~#22 Swab from bed of truck - Blood~~ *Unknown if human*

~~#23 Swab from right top of truck box - NO EXAM~~

~~#24 Scraping from carpet between right door and seat~~ *human blood*

One large sealed box containing Exhibits #35 through #39

~~#35 Blue jacket~~ *human blood A+B*

~~#36 Brown jacket~~ *human blood A*

~~#37 Blue jeans~~ *human blood A+B*

~~#38 Blue jeans~~ *human blood*

~~#39 Sweater~~ *human blood*

*- Could Not type. - [REDACTED]*

*- could Not type - insuff amount*

RESULTS:

Exhibits #2, #3, #4, #5, #21, #24, #36

Examination of the check, papers, the scraping from truck bed, the scraping from the carpet, and the brown jacket revealed the presence of human blood.

Serological typing demonstrated the presence of A antigenic activity.

*(type A -)*

Honorable James E. McMillan  
Page Three  
FDLE Lab No. 90 4 00278

Results: (Cont'd.)

Exhibits #35, #37

Examination of the blue jacket and a pair of blue jeans collected from behind the seat revealed the presence of human blood.

Serological typing demonstrated the presence of A and H antigenic activity.

Exhibit #38

✓ still seen type A.

Examination of the blue jeans demonstrated the presence of human blood; however, serological typing results were inconclusive.

Exhibit #39

Examination of a sweater demonstrated the presence of human blood; however, the amount was insufficient for further testing.

Exhibits #22, #45

Examination of a swab from the truck bed and a pen from the road yielded a positive presumptive test for the presence of blood; however, the amount was insufficient for further testing.

in suff. sample.

Exhibits #11, #13

The handgun and the crowbar were tested chemically for the presence of bloodstaining and none could be demonstrated.

Exhibits #8, #9, #18, #19, #20, #23

No examinations were conducted on the dentures, swabbings or fabric.
